Dorper & White Dorper COMPLETE FLOCK DISPERSAL

Saturday, May 29, 2021

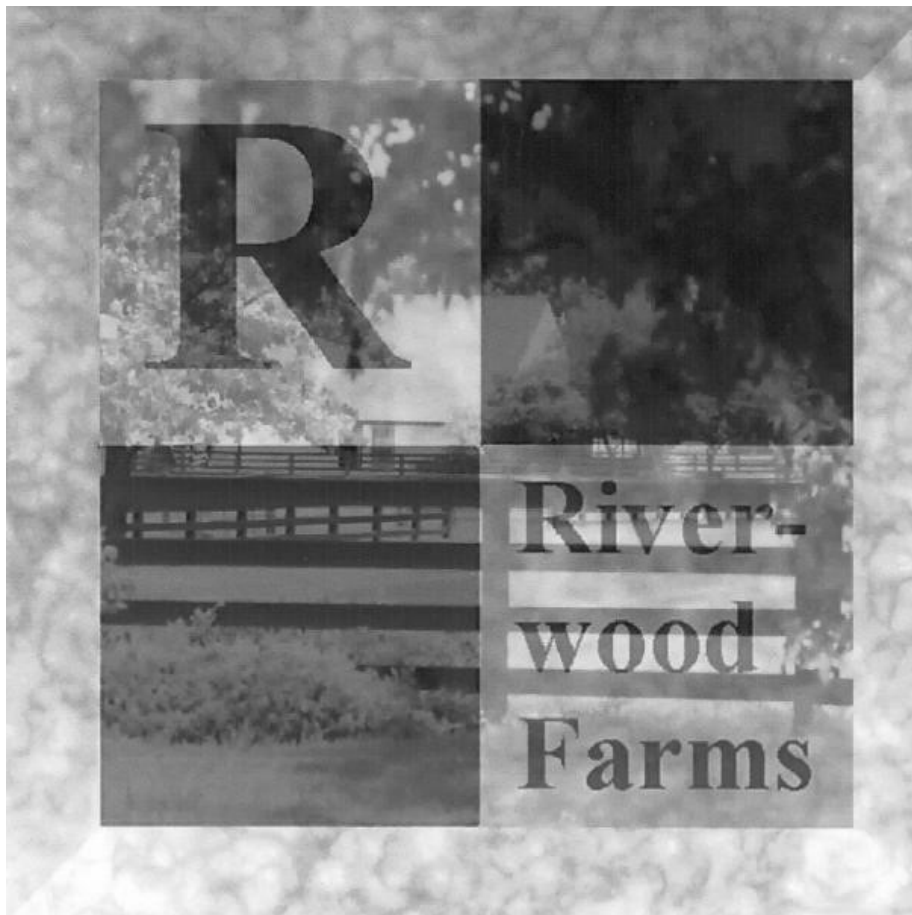

**12:00 Noon EDT
Powell, Ohio
at the farm**

**Selling 217 Head Elite Dorpers & White Dorpers
Entire Semen Bank, Sheep Equipment**

Dear Dorper and White Dorper Enthusiasts,

Welcome to the Riverwood Farms Complete Dorper and White Dorper Flock Dispersal at the Farm in Powell, Ohio. It is with mixed emotions that I write this welcome. Our show ring success has been phenomenal, but the impact that Riverwood genetics have had in flocks throughout the nation is what we take great pride in.

The future of the Dorper breed looks as bright as it has ever been right now. This sale is a tremendous opportunity for every breeder to capture some genetics that would not be for sale except for in this once in a lifetime opportunity dispersal sale. All brood ewes are exposed for fall lambs. They were bred as if we were keeping them. All yearling ewes are open. Fall ewe lambs and spring ewe lambs will be futurity nominated.

A sincere Thank You to the Kingpin behind Riverwood Farms, James Klingbeil. The one with the vision to bring in the Dorpers, his love of High Quality Livestock is truly the driving force of Riverwood Farms, from the Charolais Cattle, the Polled Dorsets, the Lowline Cattle and the Dorpers. It has truly been an honor to work for Jim for the last 21 years. If you can't make it to the sale, be sure to contact one of the sale crew listed or bid online.

Looking forward to seeing you on May 29.

Eric L. Bruns

D- HiJo B043
S- RF 4930
D- KR y351

Sells with 49 units of Semen. 1/2 interest is owned with Larrick. Full Possession/Interest sells. 854 is one of the most consistent sires we have used. He flat makes great females!! They are up headed, elegant, big topped, deep ribbed, long bodied and stand on plenty of bone, that is placed on the corners of their bodies. It does not matter what kind of female he is bred to big or small, he stamps them. Sired our Champion Ram and Ewe at 2020 NAILE. He is getting a little arthritic in his front end but is breeding ewes fine. May need a little TLC.

Sells with 55 units of Semen
Reserve Champion Ram 2020 NAILE. 6799 is a big ram that is awesome headed, just like his father, 6235 the 2016 NAILE Champion Ram. We have several fall and spring lambs by him and they look really good. 10-398 lived to be 9 years old, longevity bred in to this one. There are ewes exposed to him for fall lambs.

Champion Ram 2020 NAILE. What a ram!! Ewes sell exposed to him for fall lambs. Sired by Lot 1 and dammed by a super ewe 6395 lot 31. 6395 dammed our Reserve Champion Ewe at the 2019 NAILE. 6945 is the best son of 854, he is long, big, good headed and muscular. He traces back to our best genetics 5150, 4930, 4465, Powell Ranch 4473 and the legendary female 4415.

RF 6945 - Grand Champion Ram 2020 NAILE.
He sells as Lot 5!

This guy could be the steal of the sale. 285 was my pic of Antonio's ram lambs several years ago. He was sired by 6082 a ram we sold at Duncan. He was Champion Ram as a fall ram lamb and had some of our best "old" genetics. 6690 was a bottle lamb, so she looks like no prize, but she did dam our Champion Ewe at the 2020 NAILE, 6933. 7135 is an attractive, line bred ram with a lot of lower leg.

Lot 14- RF 7142 QR

In July, Big Jim told me to go buy 20 more Dorper Ewes. I went to Sharron Holman, Johnny Powell and RR Dorpers. We bought these ewes for an outcross. They are an impressive set of females. Two ewes from Johnny were bred for falls when we got them, and did great. At the beginning of lambing season, we had an abortion issue and all these ewes lost their lambs. It was due to a Protozoa that opossums carry. It was heart wrenching. There should be no problems with these girls going forward, they should make a mark on the Breed.

BROOD EWES

This spring we had an abortion issue. 25% of our pregnant spring lambers slipped their lambs, it was devastating. Turned out it was a Protozoa carried by opossums. I will list the ewes that aborted. There is no reason they will have a problem in the future.

S- Yucca Lily S0531
D- Yucca Lily S0618

Maternal sibs sell as Lots 137 & 212. 6992 is the longest spined, longest bodied yearling ewe. She is cool fronted with some elevation, as she matures, she will be a tough on to get around!

Twin to Lot 190. These next two should be highlights of the sale. It's not very often a set of twins are in our show flock, but they were. All hair! These are big topped females, with a huge lower leg and with that muscle they still have look and eye appeal. Stud ewes! Dam: Lot 157

I had high expectations for this mating, I was let down with the result. 7006 does not have the wow factor I expected, more of the brood ewe look. She is big and deep in her rib cage and has plenty of muscle but I'd like to extend her front. From a production stand point, may be the steal of the sale. Dam: Lot 150

Super nice RR yearling ewe. Not the biggest but conformation wise you can't make one better. Super feminine fronted, moves like a cat. Straight topped, big rib cage, wide hip, with lower leg. Just one cool little female.

Grand Champion Ram 2012 NAILE.

After seeing how well the 4144 daughters were in production, we wanted to use him again before he passed. 7074 is a thick made female that is long bodied, super long on her underline and yet still deep in her rib cage. 1808's thickness added to the size and scale of 6144 worked. She really should work as a Brood Ewe for years to come! Dam: Lot 184
