Dorper and White Dorper Breeders,

It gives me great pleasure to invite you to our 4th Production Sale at the farm in Powell, Ohio. The future for the dorpers has never looked brighter – record registrations and transfers, record turn outs for shows, record high sale averages at the sales and more shows in all parts of the country. The secret is out and Dorpers are taking the country by STORM!!!

For those flying in or driving from a distance, there are hotels listed. Call right away for reservations.

The sheep will be on display on Friday. Plan to join us Friday night for a social event. As of print time there is a truck and trailer heading east to Massachusetts, one from Texas and Riverwood Farms will provide transportation to Sedalia in June.

Sired by Lot 3. 5445 is dammed by "Impressive's" twin sister and have been one of our Donor ewes. 6209 is the most massively muscled fall ewe lamb we have. She is built like a tank. She does carry black down on her chest, yet she is still a 3 for color pattern. One stout female that should make some powerful offspring later in life.

Sired by Lot 4. 5525 is a consistent fall lamber as was her mother. 6211 has that look like she will just get better and better with time. In our last production sale, a fall ewe lamb was purchased for \$800.00 and went on to be Champion Ewe at NAILE as a yearling. 6211 looks like that...she has the wedge shape and is wide tracking as she walks away from you.
